

Unitrends™

POWERFUL PERFORMANCE AND A SLEEK DESIGN

The Recovery-610 is the rack-mounted entry-level system in Unitrends' appliance family, and the architectural sibling of our Recovery-300 desktop system. It shares the aggressive ROI and TCO of the Recovery-300 but is packaged in a sleek 1U form factor. Like the Recovery-300, the Recovery-610 sports a quad processor, 8GB of memory, and four 1.5TB drives arranged in a RAID-10 configuration. The Recovery-610 supports optional eSATA and USB archiving.

In addition, Recovery-610 offers support for more than 40 operating systems and applications, hot and cold BareMetal, advanced inline compression technology, advanced data-deduplication mechanisms to conserve precious WAN bandwidth when vaulting data off-site, and optional 256-bit AES encryption for security.

With this full complement of features, platform support, disaster recovery capabilities, and the industry's best user interface, Recovery-610 delivers value far beyond its size.

FEATURES

SERVER OPERATING SYSTEM SUPPORT

Windows 2008, Windows 2003, Windows 2003-64-bit, Windows 2000, Windows NT, Windows 2000, Linux/GNU x86-64, Linux/GNU x86-32, Netware OES/OES2, Netware OES1, Netware 6.x, Netware 5.x, IBM pSeries/AIX 5.x, pSeries/AIX 4.x, pSeries/AIX 6.x, iSeries/OS400 5.x, Solaris 2.5, Solaris 2.6, Solaris 2.7, Solaris 2.8, Solaris 2.9, Solaris 2.10, Solaris x86, Mac 10.2, Mac 10.3, Mac 10.4, 10.5, HP-UX 9.x, HP-UX 10.x, DEC Alpha Tru64, FreeBSD 3.6 and above, SCO OpenServer 5, SCO 5.0.6, UnixWare 7.1.3, UnixWare 7.1.4, SGI IRIX, VMware ESX 3.0 and ESX 3.5, VMware Workstation.

CLIENT OPERATING SYSTEMS SUPPORT

Windows Vista, Windows XP, Windows 98, Windows 95, Windows ME, Linux 64- and 32-bit, MacOS X 10.5, 10.4, and 10.3.

APPLICATION SUPPORT

Microsoft Exchange 2007, 2003, 2000 Store Level Backup, Microsoft SQL 2008, 2005, MSDE, Express, SBS, 2000.

BUSINESS CONTINUITY

Point-in-Time Unstructured (File) Data Protection
Point-in-Time Structured (Application) Data Protection
Advanced Hot & Cold BareMetal Recovery
Windows Dissimilar BareMetal Recovery

MANAGEMENT AND SECURITY

Rapid Recovery Console
Customizable Reporting
InCrypt (AES 256-bit Encryption) is optional

DISASTER RECOVERY

Electronic Vaulting is optional

Too many data protection solutions make *you* take charge of a complex integration process. They add to your headaches instead of reducing them. If you're tired of complexity, and looking for a full-featured solution that's simple, reliable and fast, you're ready for Unitrends. Beauty that's more than skin deep.

Recovery-610

HARDWARE (APPLIANCE PLATFORM)

Maximum Number Servers/Clients	10
Unformatted, Compressed Physical Storage	6 TB (Assumes 2:1 Standard Compression)
Maximum Protected System Content	1.125 TB
Form Factor	1U Rack Mount
Environment	Back Room
Drives	4
RAID Technology	RAID-10
Unformatted Storage	3 TB
Archiving Interface	USB 2.0, eSATA
Maximum Archive Set	1.5 TB
CPU	Quad Core
Memory	8GB
Network	1GBit Ethernet
Power Supply	Single 420 W
